It surveys the major concepts and practices of the contemporary ther- apeutic systems and addresses some ethical and professional issues in counseling practice. The book aims to teach students appreciate an overview of the divergent contemporary approaches to counseling and psychotherapy. They also consistently say that the first course in counseling means more to them when it deals with them personally. Therefore, I stress the practical application of the material and encour- age reflection. Using this book can be both a personal and an academic learning experience. In this ninth edition, every effort has been made to retain the major qualities that students and professors have found helpful in the previous editions: the suc- cinct overview of the key concepts of each theory and their implications for prac- tice, the straightforward and personal style, and the book's comprehensive scope. Care has been taken to present the theories in an accurate and fair way. I have at-tempted to be simple, clear, and concise. Because many students want suggestions for supplementary reading list at the end of each chapter. This edition updates the material and refines existing discussions. Part 1 deals with issues that are basic to the practice of counseling and psychotherapy. Chapter 1 puts the book into perspective, then students are introduced to the counselor—as a person and the therapeutic relationship. Chapter 3 introduces students to some key ethical issues in coun-seling practice, and several of the topics in this chapter have been updated and expanded. Part 2 is devoted to a consideration of 11 theories of counseling. Each of the theory chapters follows a common organizational pattern, and students can easily compare and contrast the various models. This pattern includes core and several of the theory chapters follows a common organization of 11 theories of counseling. topics such as key concepts, the therapeutic process, therapeutic process, therapeutic techniques and procedures, multicultural perspectives, theory applied to the case of Stan, and summary and evaluation. In this ninth edition, all of the chapters in Part 2 have been revised, updated, and expanded to reflect recent trends. Revisions were based on the rec-ommendations of experts in each theory, all of whom are listed in the Acknowledg- ments section. Both expert and general reviewers provided suggestions for adding, replacing, and expanding material for this edition. Attention was given to current Preface n of 11 theo zational patt This pattern erapeutic t to the ca he chapte trends. Cengage Learning reserves the right to remove additional content at any time if subsequent rights restrictions require it. xiii P R E FA C E trends and recent developments in the practice of each theoretical approach. For each chapter in Part 2, the citations have been updated. Each of the 11

theory chapters summarizes key points and evaluates the con- tributions, and applications of these theories. Special attention is given to evaluating each theory in working with diverse client populations. The consistent organization of the sum- mary and evaluation sections makes comparing theories easier. Students are given recommendations regarding where to look for further training for all of the approaches. Updated annotated lists of reading suggestions and extensive refer- ences at the end of these chapters are offered to stimulate students to expand on the material and broaden their learning through further reading. In addition, a list of DVD resources has been added to the ninth edition for each of the theory chapters are out- lined below: chapter 4 Psychoanalytic Therapy • Increased emphasis on the role of the relationship in analytic therapy 🏶 Increased coverage on contemporary psychodynamic therapy 🏶 New material on countertransference, its role in psychoanalytic therapy, and guidelines for effectively dealing with countertransference & Expanded discussion of resistance and how to work with it effectively Revised material on the concept of lifestyle Expanded discussion of social interest New material on early recollections 🕏 Streamlined discussion of some key concepts chapter 6 Existential Therapy 🌣 New and expanded coverage of the contributions of Irvin Yalom and James Bugental to existential therapy 🌣 New material on main aims of existential therapy 🏶 Revised section on the client-therapist relationship 🏶 Revised discussion of strengths of the approach from a diversity perspective 🏶 New discussion of integration of existential concepts in other therapies Copyright 2011 Cengage Learning.
